

# Innoplexus Capabilities, Technology and Differentiators

For:

PPD

By: Innoplexus

Vatsal Agarwal, Vice president - Artificial intelligence & computational linguistics

Jackie Jordan, Vice President, Global Accounts

# Approach, Technology and Differentiators

Innoplexus AI understands the language of life sciences

# Innoplexus Evolution at a Glance

**300+** top talents from leading universities and Institutes globally such as Max Planck Institute, Johns Hopkins and Indian Institutes of Technology

**35** data scientists

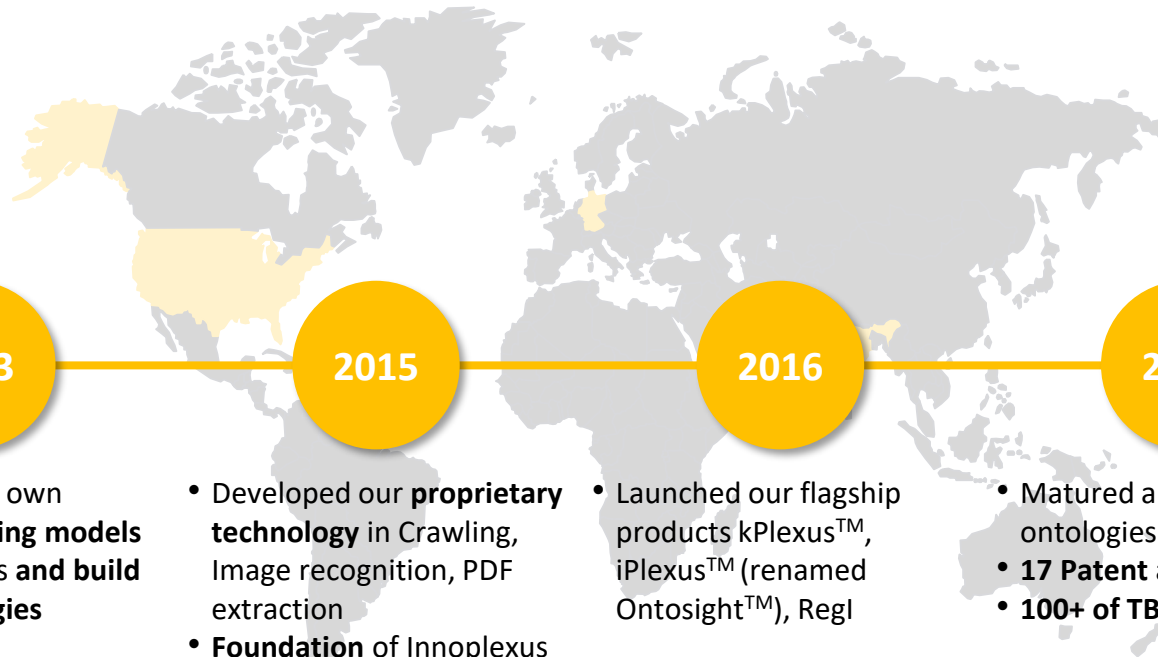

**73** engineers

**9** UX

**19** PhDs

**2011**

- **Foundation** of Innoplexus Ltd in Pune (India)

**2013**

- Developed our own **machine learning models** & text analytics **and build up our ontologies**

**2015**

- Developed our **proprietary technology** in Crawling, Image recognition, PDF extraction
- **Foundation** of Innoplexus AG (HQ, Germany)

**2016**

- Launched our flagship products kPlexus™, iPlexus™ (renamed Ontosight™), Regl

**2017**

- Matured algorithm and ontologies
- **17 Patent** applications
- **100+ of TB** data

**2018**

- **300+ people** experienced in Pharma, Life Sciences, Data Science, Software Development, Consulting
- **77+ Patent** applications
- **3 locations** in Germany, India, USA
- Launch of **blockchain** platform for **research**
- **20 global customers**

# Innoplexus Believes Data Analytics Should be a Core Competency for our Clients

**Higher Cognitive Tasks**

**Interpret Insights, apply company context and judgement; make strategic decisions**

**Lower Cognitive Tasks**

**Visualize data, build reports, create dashboards**

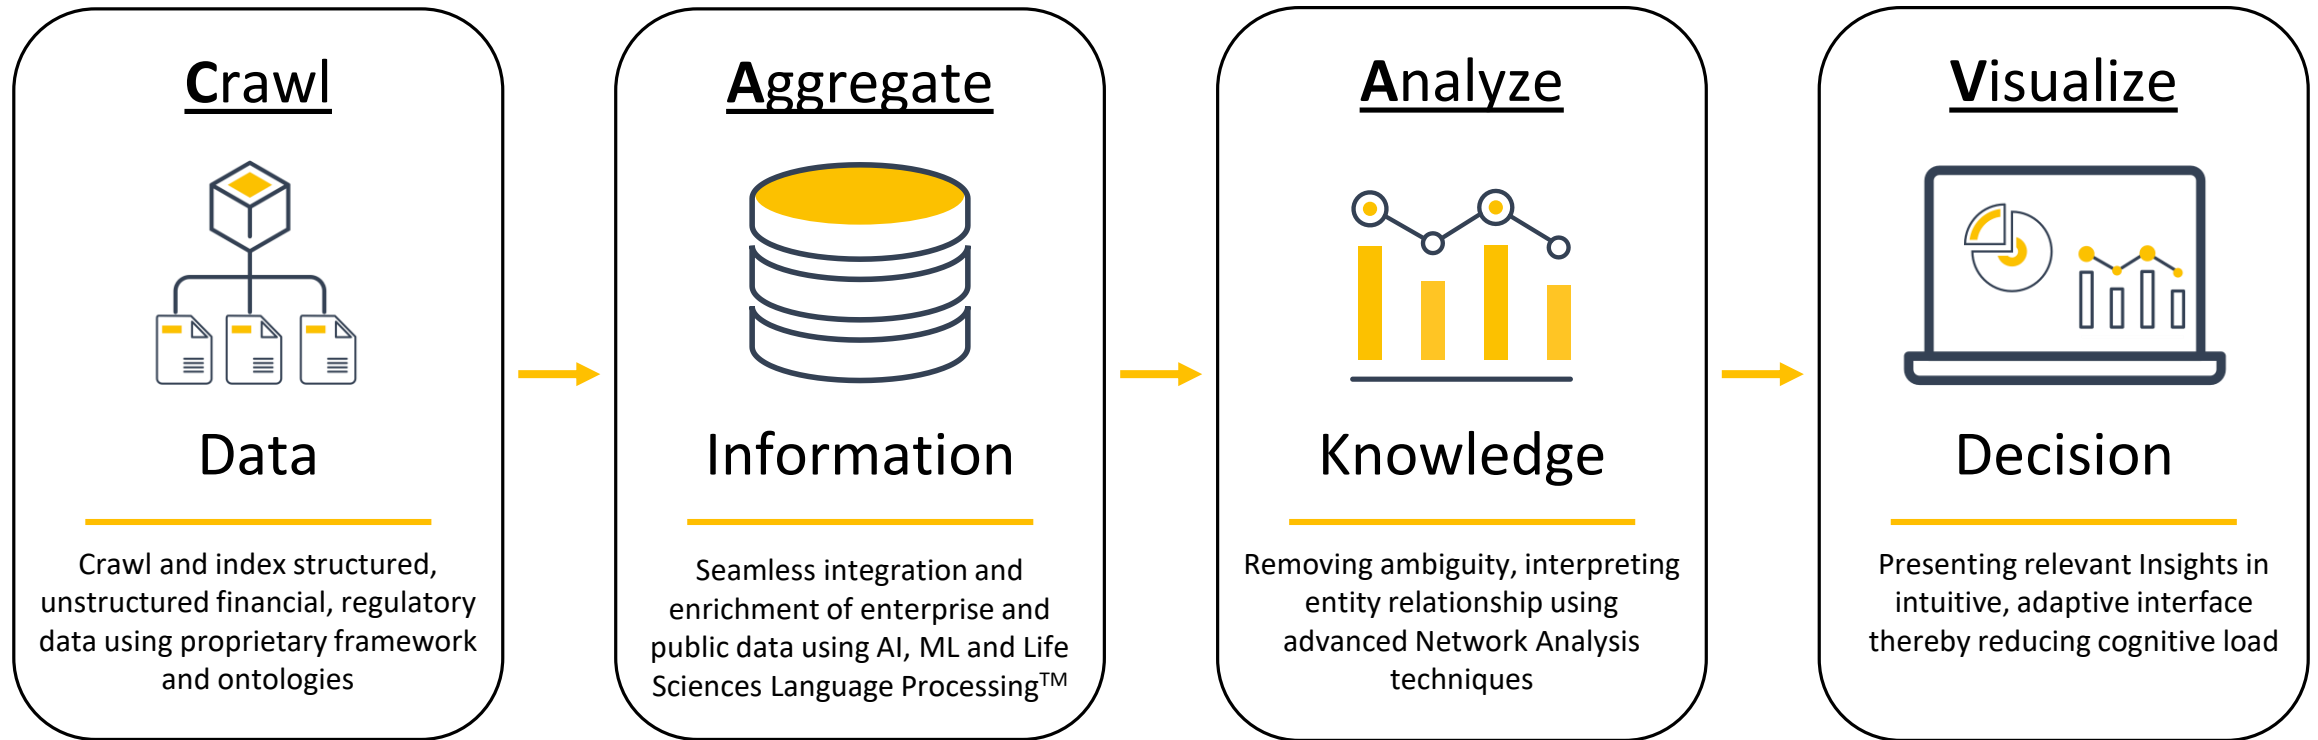

**Collect, structure, and analyze data**

**Our business model facilitates clients to build this core competency, rather than outsource it**

# Innoplexus Proprietary CAAV™ Framework: AI and Machine Learning Across the Entire Framework

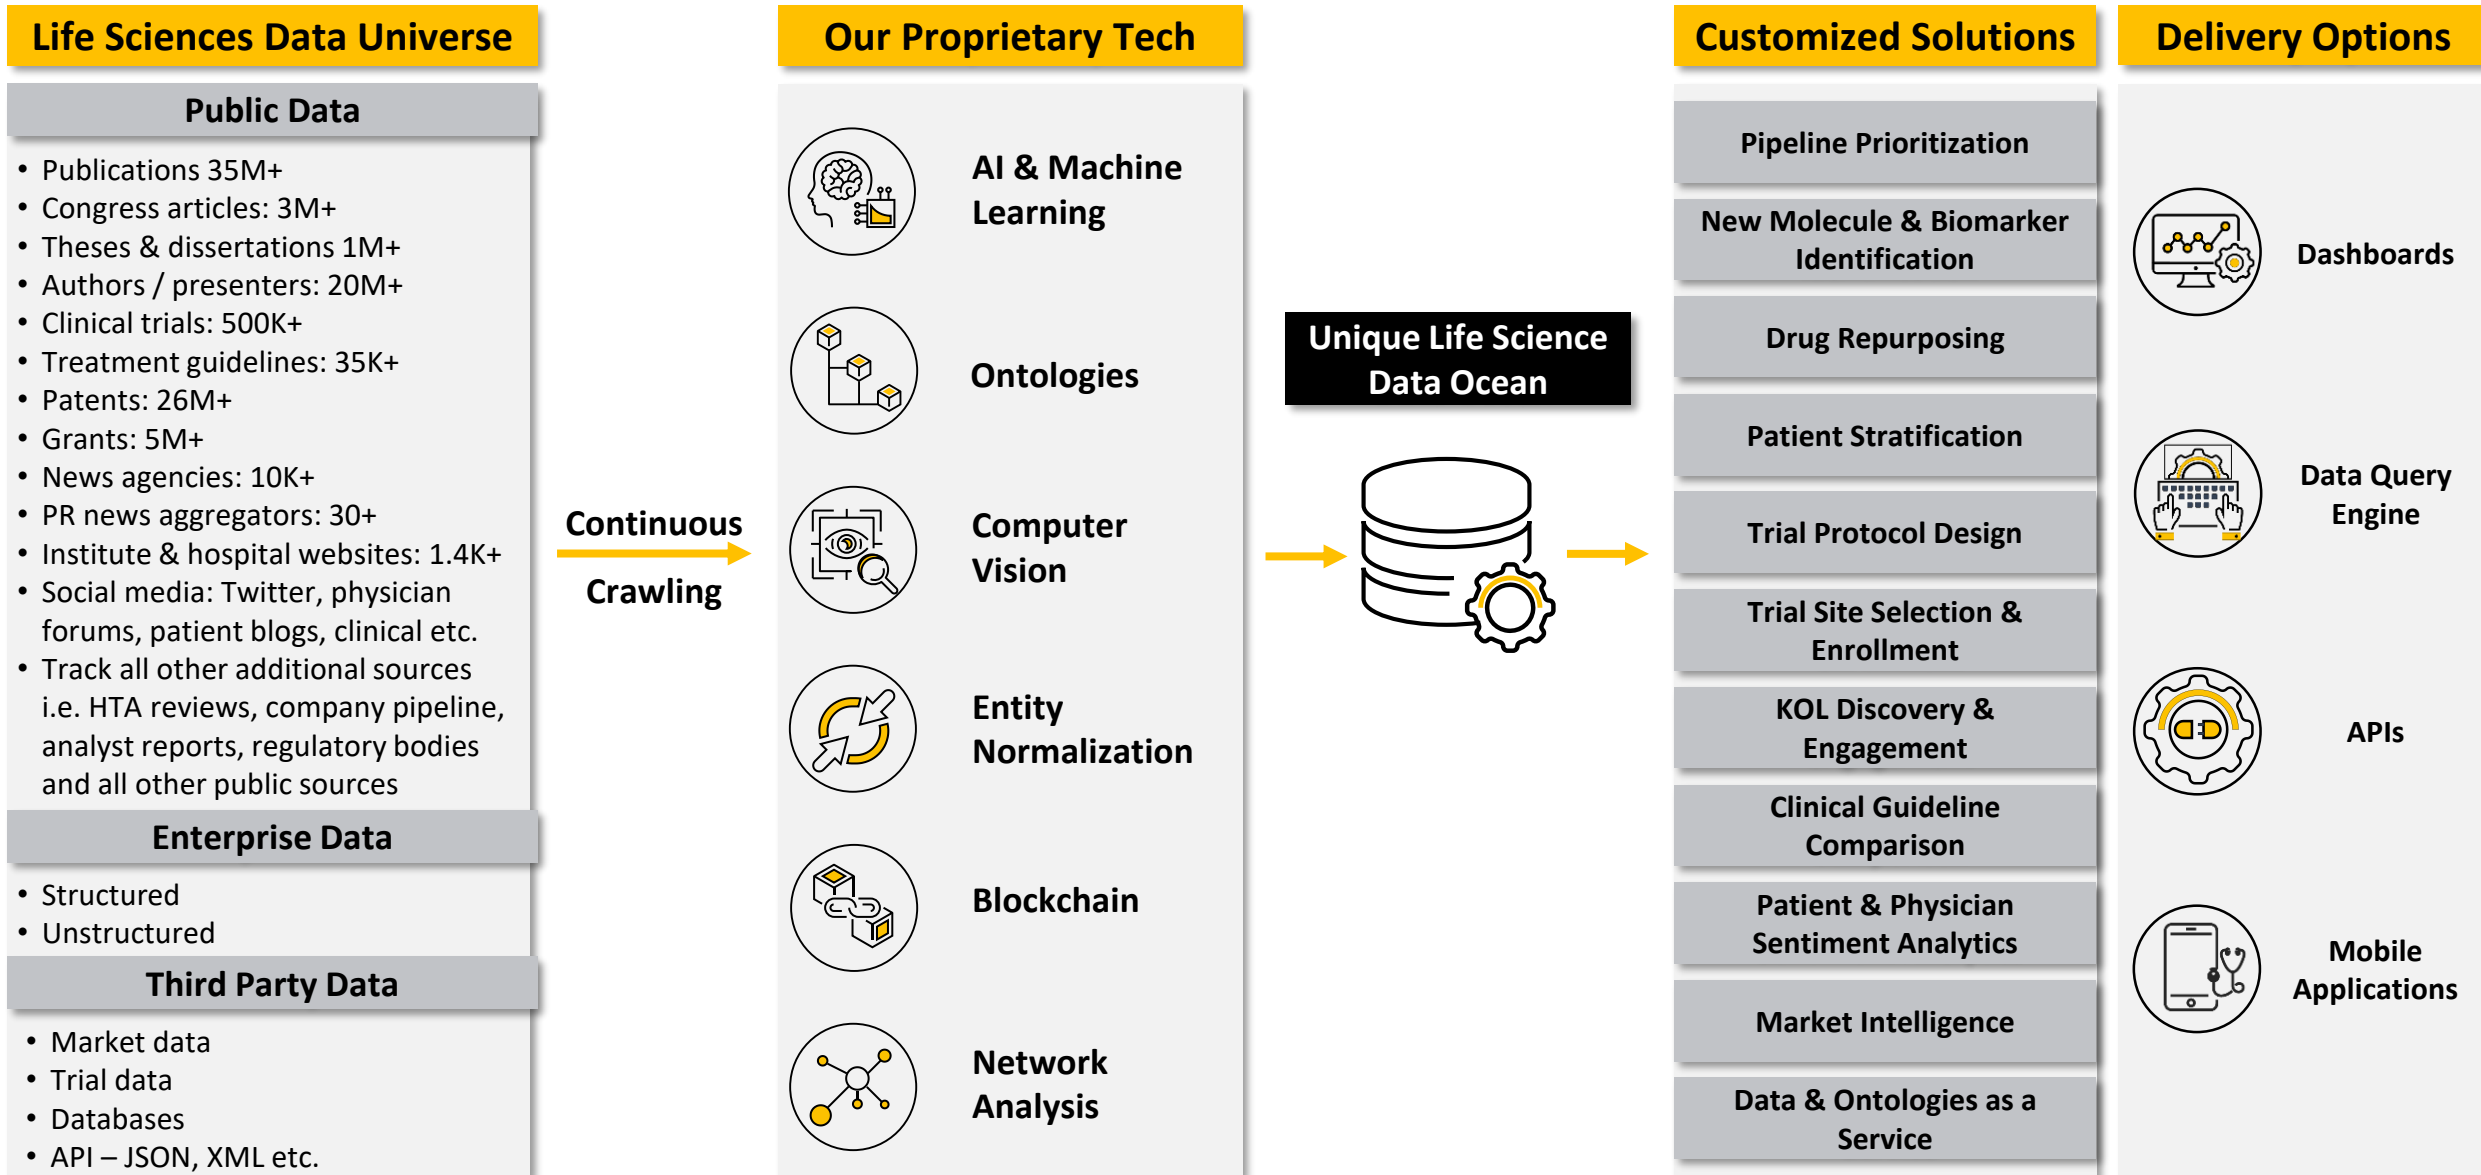

We help organizations move to **continuous decision making** by generating insights from structured, unstructured private and public data using our **CAAV™** framework

**Innoplexus Key Differentiator: 90+ patent applications<sup>1</sup> across our proprietary CAAV™ framework**

1. Patent applications in progress for this financial year

# Innoplexus Scans 95% of the World Wide Web to Develop Actionable Scientific Insights

# Innoplexus Patent Pending Technology Empowers Teams to Achieve Faster and Deeper Relevant Insights

## How we differ?

*Our Artificial Intelligence*  
understands  
**Life Sciences**

Artificial Intelligence  
& Machine Learning

Ontologies

## How it works?

**Our ontology is self-learning, creating an auto scaling research graph**

- 31+ Million biomedical terms and concepts
- 1+ Trillion data connections

**We configure AI models over this Ontology creating an unbiased data set**

- Life science language processing™ instead of NLP
- “Cancer” is big deal in natural language, “Cancer” is a disease in life sciences

*Our systems*  
process  
**Unstructured data**

Computer Vision /  
Image Recognition

Entity  
Normalization

**We do not require data in templates**

- Extract data from archives, congresses and other data in PDFs/images
- Understands page layout, structure and separates tables and graphs

**Our algorithms connect records across scattered data sources**

- Covers name variations and synonyms. John D Smith vs. Smith, JD
- Multiple terms abbreviated i.e. APR

*Our architecture*  
connects  
**Enterprise data**

Blockchain

Network Analysis

**We integrate enterprise data securely**

- TruAgent™ makes data searchable without storing the original content
- Ability to integrate with all third-party and enterprise data

**Our setup generate insights on the fly**

- Large scale network of information from public & enterprise
- Continuous data integration and real-time insights

## Frankfurt (Germany):

Innoplexus AG  
Frankfurter Strasse 63,  
65760 Eschborn

## Pune (India):

Innoplexus Consulting  
Services Pvt. Ltd.  
7th Floor, Midas Tower  
Hinjewadi Phase 1, Pune 57

## New Jersey (USA):

Innoplexus Holdings, Inc.  
258 Newark Street, Suite 301,  
Hoboken, NJ 07030

Innoplexus AG offers Data as a Service and Continuous Analytics as a Service products and solutions helping organizations move towards continuous decision-making by generating insights from structured and unstructured private and public data leveraging cutting edge, proprietary Artificial Intelligence, Machine Learning and Blockchain technologies. More than 80 patent applications make Innoplexus to a leading European AI champion. Founded in 2015, INNOPLEXUS AG is headquartered in Eschborn, Germany with offices in Pune, India, and Hoboken, USA.
